

A General Description of the Real Estate Simulator™

Our Real Estate Simulator™ is a world-class assessment tool that uses simulation technology to recreate the real-life challenges that real estate agents encounter on a daily basis.

Play the role of a Real Estate Agent and interact with virtual clients who are interested in buying or selling property.

The Real Estate Simulator™ will take you through the entire sales cycle from building rapport to closing, giving you the opportunity to demonstrate your ability to handle objections, negotiate price, understand client needs, deal with personality clashes, and even handle periodic rejection.

Using a three-in-one assessment strategy, the Real Estate Simulator™ evaluates selling skills, intelligence, and personality to provide comprehensive information about your fit for a career in Real Estate sales.
